

Student Activities

- The all-school choir has become well-known throughout the Lake Almanor/Susanville area for its repertoire of quality *a cappella* sacred music.
- International travel provides breadth of perspective and cross-cultural experience for our students.
- The monthly outings club promotes an appreciation for local beauty through hiking, snowshoeing, skiing, and more.
- Other activities include summer wilderness backpacking, North American and international choir tours, the Team America Rocketry Challenge, and Drama.

Future Vision

St. Andrew's Academy is currently undergoing the process for certification by SEVP to receive foreign boarding students. In addition, the Academy is seeking land to expand the school and build permanent facilities.

St. Andrew's Academy admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the Academy. St. Andrew's Academy practices a Biblical philosophy of admissions not discriminating on the basis of race, color, national and ethnic origin in administration of its educational policies, admissions policies, scholarships, athletic and other school-directed programs.

An Education based on the wisdom of 3000 years of Western Heritage is still available. This is the education of our forefathers. This is the education that has shaped centuries of leaders. This is the education that makes a difference in the course of history. It is not for the faint-of-heart, but it is vital for the health of our communities, our country and the world.

The Mission of St. Andrew's

is to equip our students with the tools of learning and to endow them with the wisdom of the ages so that they may serve God and their fellow man with virtue and strength.

St. Andrew's Academy at a Glance

St. Andrew's is a private, K-12, Christian preparatory school located in the Lake Almanor area of Northeastern California. It is affiliated with and operates as a ministry of Christ the Redeemer Church. The Academy is funded by the affiliated church, student tuition, grants from private foundations and especially donations from individuals.

Goals of St. Andrew's

The Academy is committed to providing the following for our students:

- A worshipping community in which spiritual formation may flourish
- Superb academics to prepare our graduates to excel in future educational & vocational pursuits
- Continual emphasis on integrity and humility through opportunities to serve our community
- The experience of beauty in art and music and of travel to increase understanding of the world we share
- An environment that fosters mutual respect

Chapel

Every day at St. Andrew's Academy begins and ends with a traditional Anglican prayer service, striving for the humility that lies at the center of wisdom. Love for each other begins with love for God, and the singular ethos of St. Andrew's flows from our corporate prayers.

Residential Boarding

Boarding at St. Andrew's challenges students to new responsibility, confidence and maturity. Students form close friendships in a community of peers, and receive encouragement and guidance by faculty who are regularly available to them. Many students find the boarding experience as valuable as the academic learning in the classroom.

Educational Philosophy

The approach to education at St. Andrew's is founded upon a classical and Christian worldview.

- The Classical View of Reality - Truth is objective, and man is responsible to seek the Truth throughout his life.
- The Nature of Man - A human being is a physical and spiritual unity, and education must reflect that truth.
- The Wisdom of the Ages - Young scholars should be exposed to the finest minds in the history of the world and the great ideas that they discuss.
